Students will be allowed to use iPhones or iPod Touches in their classrooms at an Alberta school. (CBC)

A junior high school in St. Albert, Alta., plans to allow its students to stay plugged in when they start school in September.

Richard S. Fowler Catholic Junior High School will allow students to use their iPhones or iPod Touches in the classroom.

It's a dramatic change from the school's current no cellphone policy.

Sean Brown, vice-principal of the school, said the school has changed its policy because the school believes the Apple products can be used to teach students.
